Reading Skill Practice

Writing a summary can help you remember the information you have read. When you write a summary, write only the important points. Write a summary of the information in Section 6–3. Your summary should be shorter than the text on which it is based.

Chapter 6 Humans in the Biosphere

Section Review 6-3

Reviewing Key Concepts

Short Answer On the lines provided, list four human activities that are current threats to biodiversity.

- 1. ______
- 3. _____
- 4. _____
- 5. Why is biodiversity one of Earth's greatest natural resources?
- **6.** Why do conservation efforts currently focus on protecting entire ecosystems as well as single species?

Reviewing Key Skills

Interpreting Graphics *Use the following diagram to answer questions* 7 *through* 9.

- 7. Identify the process shown in this diagram.
- 8. What do the small dots represent?
- 9. What are the effects of the process shown?
- **10. Applying Concepts** Explain the term biological "hot spot."
